## HOW TO MEASURE

---

image unavailable

### CHEST 1

Measure the chest width of the garmentadsssss

#### STEP-BY-STEP INSTRUCTIONS

1. Lay the garment flat on a smooth surfaces
2. Smooth out any wrinkles or folds
3. Locate the point 2.5cm below the armhole on both sides
4. Place the measuring tape horizontally across the chest at this point
5. Measure from side seam to side seam
6. Record the measurement in centimeters

#### TIPS

- Ensure the garment is completely flat before measuring
- Do not stretch the fabric while measuring
- Measure at the widest point of the chest area

#### COMMON MISTAKES

- Measuring too high or too low on the chest
- Not laying the garment completely flat
- Stretching the fabric while measuring

- Take the measurement twice to ensure accuracy

- Measuring at an angle instead of horizontally

**Related POM:** WAIST, SHOULDER

No image provided

## WAIST 2

Measure the waist width of the garment

### STEP-BY-STEP INSTRUCTIONS

1. Lay the garment flat on a smooth surface
2. Locate the waist level (typically at the narrowest point of the body)
3. Place the measuring tape horizontally across the waist
4. Measure from side seam to side seam
5. Record the measurement in centimeters

### TIPS

- The waist is usually the narrowest part of the garment
- Ensure the garment is flat and not twisted
- Measure at the natural waistline

### COMMON MISTAKES

- Measuring at the wrong level (too high or too low)
- Not keeping the tape horizontal
- Measuring a twisted or folded garment

Related POM: CHEST, LENGTH

No image provided

## LENGTH 3

Measure the total length of the garment from shoulder to hem

### STEP-BY-STEP INSTRUCTIONS

1. Lay the garment flat on a smooth surface
2. Locate the highest point of the shoulder seam
3. Place the measuring tape at this point
4. Measure vertically down to the bottom hem
5. Follow the center line of the garment (front or back)
6. Record the measurement in centimeters

### TIPS

- Measure along the center front or center back
- Keep the tape straight and vertical
- Ensure the hem is fully extended

### COMMON MISTAKES

- Measuring from the wrong point on the shoulder
- Not keeping the tape vertical
- Measuring along the side seam instead of center
- Not extending the hem fully

Related POM: SLEEVE, ARMHOLE

No image provided

## SLEEVE 4

Measure the length of the sleeve from shoulder to cuff

### STEP-BY-STEP INSTRUCTIONS

1. Lay the garment flat with the sleeve extended
2. Locate the shoulder seam
3. Place the measuring tape at the shoulder seam
4. Measure along the sleeve to the edge of the cuff
5. Follow the natural curve of the sleeve
6. Record the measurement in centimeters

### TIPS

- Extend the sleeve fully but do not stretch
- Follow the natural curve of the sleeve
- Measure to the edge of the cuff, not the hem

### COMMON MISTAKES

- Measuring in a straight line instead of following the curve
- Measuring to the wrong point (hem instead of cuff edge)
- Stretching the sleeve while measuring

Related POM: ARMHOLE, CUFF

No image provided

## SHOULDER 5

Measure the width across the shoulders

### STEP-BY-STEP INSTRUCTIONS

1. Lay the garment flat on a smooth surface
2. Locate the shoulder seams on both sides
3. Place the measuring tape horizontally from shoulder seam to shoulder seam
4. Measure across the back of the garment
5. Record the measurement in centimeters

### TIPS

- Measure across the back for accuracy
- Ensure both shoulder seams are aligned
- Keep the tape horizontal

### COMMON MISTAKES

- Measuring at an angle
- Not aligning the shoulder seams properly
- Measuring the front instead of the back

Related POM: CHEST, ARMHOLE
